RELATED APPLICATION DATA

This application is a continuation-in-part of applications Ser. No. 09/099,118,

5 filed June 17, 1998, entitled "Communicating Logical Addresses of Resources in a Data Service Channel of a Video Signal," and Ser. No. 09/099,481, filed June 17, 1998, entitled "Combining Real-Time and Batch Mode Logical Address Links," the disclosures of which are incorporated by reference.

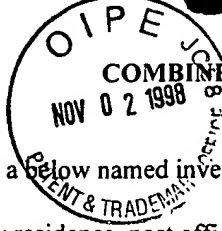

FIELD OF THE INVENTION

10 The present invention relates generally to user interfaces for interactive television which facilitate switching between viewing a television program and viewing content related to that television program.

BACKGROUND OF THE INVENTION

15 The Internet is a well-known, global network of cooperatively interconnected computer networks. The World Wide Web ("WWW" or "Web") portion of the Internet is a collection of interconnected server computers hosting World Wide Web sites (referred to as "Web sites") on the Internet. A Web site consists of stored electronic
20 documents ("Web pages" or "Web content") written in a hypertext mark-up language ("HTML") format and containing references to numerous dependent documents. Web pages can be accessed by a computer user having a connection to the Internet. There are millions of Web sites on the Internet, providing an enormous spectrum of content, including content relating to popular television shows, specific
25 episodes, and popular television characters, and other content desirably associated with a television program by advertisers, producers, or broadcasters (together, "related content" or "auxiliary data").

30 A Uniform Resource Locator ("URL") identifies the location of a document on the Internet. For example, URLs beginning with the prefix "http://www" identify Web sites and content within the Web sites. Internet content, especially Web content, is

COMBINED DECLARATION AND POWER OF ATTORNEY FOR PATENT APPLICATION

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name,

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled TELEVISION/INTERNET TERMINAL USER INTERFACE, the specification of which

- ☐ is attached hereto.
- ☒ was filed on September 15, 1998 as Application No. 09/153,577.
- ☐ was described and claimed in PCT International Application No. _____, filed on _____, and as amended under PCT Article 19 on _____ (if applicable).
- ☐ and was amended on _____ (if applicable).
- ☐ with amendments through _____ (if applicable).

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in Title 37, Code of Federal Regulations, § 1.56. If this is a continuation-in-part application filed under the conditions specified in 35 U.S.C. § 120 which discloses and claims subject matter in addition to that disclosed in the prior copending application, I further acknowledge the duty to disclose material information as defined in 37 CFR § 1.56 which occurred between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.

I hereby claim foreign priority benefits under Title 35, United States Code, § 119(a)-(d) of any foreign application(s) for patent or inventor's certificate or of any PCT International application(s) designating at least one country other than the United States of America listed below and have also identified below any foreign application(s) for patent or inventor's certificate or any PCT International application(s) designating at least one country other than the United States of America filed by me on the same subject matter having a filing date before that of the application(s) on which priority is claimed:
